

My College Options:

Students complete a questionnaire answering questions about what they want in a college (cost, size, location, majors offered, sports/activity opportunities, etc.).

Based on the students' answers *My College Options* uses a unique matching system to link the students' goals and aspirations with the colleges and universities that are right for them.

Students can view their profile anytime at www.MyCollegeOptions.org. Students may also make any needed changes to their questionnaire thus getting an updated "match" of schools they may want to check out. In addition to hearing directly from colleges and universities, the student may also hear from educational career service providers offering products and services such as college admissions services, financial aid, career information, extracurricular enrichment and recognition programs.

This is a free and very quick way to get a list of the colleges and university that match students' needs and wants.
